PROFILE

Senior Software Engineer with 7+ years of experience in the JavaScript ecosystem, specializing in React, Next.js, Nest.js, and TypeScript. Collaborative and proactive, focused on building scalable architectures and high-performance applications. Passionate about clean code, developer experience, and pushing modern web technologies forward.

EXPERIENCE

📅 06/2023 – PRESENT 📍 BELGRADE, SERBIA

Lead JavaScript Developer 167Pluto

- Unified the codebase with TurboRepo, reducing build times and boosting cross-team reuse.
- Delivered scalable, event-driven applications with React, TypeScript, Nest.js, Redis, and Kafka, handling growing user demand.
- Introduced an API-first workflow with OpenAPI and Orval.js, eliminating integration bottlenecks and ensuring type-safe communication.
- Automated CI/CD pipelines with GitHub Actions, reducing release time from hours to minutes.
- Optimized AWS infrastructure and NGINX configuration, improving load times and cutting infrastructure costs.
- Championed Jest and Playwright adoption, mentoring teammates and standardizing test automation across projects.

📅 12/2022 – 06/2023 📍 BELGRADE, SERBIA

JavaScript Developer Q Agency

- Built reusable Node.js packages, cutting frontend development time and reducing duplicated work.
- Led delivery of an SQL Interpreter app for Petrol China, developing the frontend with React and handling cloud deployment on Azure, improving functionality and user adoption.
- Delegated tasks and coordinated team efforts, keeping the project on schedule and ensuring clear accountability.
- Collaborated with designers to create an intuitive, visually cohesive interface that boosted usability.
- Maintained a clean, maintainable codebase, reducing technical debt and accelerating future feature development.

ACHIVEMENTS

- Led technical initiatives that boosted scalability, developer productivity, and long-term maintainability.
- Drove migration to a monorepo, enhancing collaboration and reducing duplicated work across teams.
- Advocated an API-first approach, ensuring seamless integration between frontend and backend services.
- Automated CI/CD pipelines, cutting deployment times and increasing release confidence.
- Championed a testing-first mindset with modern frameworks, improving code reliability and team craftsmanship.
- Contributed to architectural decisions optimizing performance, scalability, and user experience.
- Mentored developers and improved cross-team communication, fostering a culture of learning and ownership.
- Delivered end-to-end features with strong technical quality and measurable product impact.

📅 10/2021 – 12/2022 📍 BELGRADE, SERBIA

Frontend Developer Neotech Solutions

- Developed and maintained React-based micro-frontends for iGaming tournaments, improving performance and scalability across platforms.
- Created shared Node packages for React to unify UI components and theming, cutting implementation time for new features and reducing duplicated work.
- Collaborated with cross-functional teams in Agile environments, translating design and business requirements into performant, reusable solutions.
- Optimized rendering and state management, delivering smoother user interactions and faster load times.

📅 03/2021 – 03/2022 📍 REMOTE

Freelancer UpWork

- Delivered rapid MVPs for startups in finance, HR, and medtech using React and Firebase, accelerating time-to-market.
- Translated startup requirements into tailored, scalable solutions, collaborating closely with teams to address industry-specific challenges.
- Built intuitive user interfaces, enhancing usability and streamlining interactions.
- Leveraged Firebase backend functionalities, simplifying data management, improving performance, and enabling rapid iteration.

📅 11/2020 – 03/2021 📍 DÜSSELDORF, GERMANY

Web Developer Liquidity Hunter FX

- Managed the company website with Next.js, ensuring fast, SEO-friendly, and user-friendly experiences.
- Implemented SEO strategies leveraging Next.js features, improving search engine rankings and increasing organic traffic.
- Integrated Stripe payment solutions, streamlining transactions and enhancing user experience.
- Built a Forex PIP calculator with React and economic APIs, providing users with a practical trading tool.

📅 03/2018 – 01/2020 📍 ĆUPRIJA, SERBIA

Full stack developer TRIBE Festival

- Built and launched the festival website from scratch using the MERN stack, owning the project end-to-end.
- Designed the ticketing interface with React for a seamless purchase experience.
- Integrated PayPal for secure, reliable payments.
- Streamlined purchase flow and data handling, improving efficiency and reducing errors.

VOLUNTEERING

📅 07/2017 – PRESENT 📍 ĆUPRIJA, SERBIA

Public Presenter on "Human Trafficking Prevention" Red Cross

- Delivered 350+ educational sessions over 8 years to schools, community groups, and organizations.
- Raised awareness and provided actionable strategies to prevent human trafficking.
- Engaged diverse audiences with clear, impactful presentations.
- Advocated for vulnerable populations and promoted community safety.

📅 07/2018 – 03/2020 📍 ĆUPRIJA, SERBIA

General Secretary Youth Association of Ćuprija

- Oversaw financial accounts with accuracy and transparency, strengthening stakeholder trust.
- Ensured full compliance with statutes and regulations, mitigating risk and protecting the organization's reputation.
- Optimized documentation and operational workflows, boosting efficiency and reducing errors.

📅 12/2016 – 06/2018 📍 ĆUPRIJA, SERBIA

Team Leader Youth Association of Ćuprija

- Led a youth group of 25–60 members aged 15–19, fostering engagement and personal development.
- Organized activities and initiatives to promote teamwork, leadership, and community involvement.
- Mentored young members, helping them build skills and confidence.
- Coordinated events and projects, ensuring smooth execution and active participation.
